ROAST

BOROUGH MARKET

At Roast We Celebrate The Very Best Of British

Overlooking Borough Market from our first-floor Floral Hall, Roast is a modern British restaurant rooted in provenance. We work with the Market's traders, growers and makers every morning — the result is seasonal, honest cooking that lets great produce speak.

DESIGN & HISTORY

Set within the restored Floral Hall — original 1850s ironwork, vaulted glass roof and timber floors. The space was once the heart of London's flower trade. Today it holds light, laughter and long lunches, with views directly into the Market bustle below. No fuss, just craft.
